

Policy on Safety Goggles for Lab GTAs

Virginia Tech Chemistry Department

This policy was enacted by the Chemistry Department Safety Committee and approved by the Department Chair on May 30, 2007.

1. The purpose of this policy is to establish guidelines on proper eye protection for GTAs leading undergraduate laboratory courses.
2. GTAs leading undergraduate laboratory courses must wear safety goggles of the same kind and quality, and in the same manner, as required of the students in those courses.
3. Persons (faculty members, approved visitors) entering undergraduate teaching laboratories in which experiments are in progress must wear safety goggles of the same kind and quality, and in the same manner, as required of the students in those courses.
