

Chemical Transport Affidavit

“Personnel removing chemicals from the stockroom will be required to notify the stockroom staff if they intend to transport chemicals anywhere other than Hahn, Davidson, or Chemistry Physics. Individuals intending to remove chemicals from the department must sign an affidavit indicating that they are aware of university policies on chemical transport and, in particular, that if they transport chemicals in a vehicle they may be subject to VDOT transport regulations.” – Excerpted from Policy on Chemical Transport of 10/24/06.

With my signature below, I affirm that I am aware of University policies on chemical transport. I promise to follow these policies in good faith. I am aware that the transport of chemicals in a non-university vehicle may be subject to regulations established by the Virginia Department of Transportation (VDOT).
